

Characteristics of the Danish Healthcare System emphasizing factors that affect innovation

Place: CBS, Kilen, rum K146, 1. sal, Kilevej 14, Frederiksberg

Date: Tuesday, 13 June 2017

Time: 12:00-15:00

Expert lectures on factors affecting innovation in the Danish Healthcare System

In these expert lectures, Copenhagen Health Innovation will provide an overview of some of the key factors affecting innovation in the Danish Healthcare System in order to create solutions for tomorrow, linking health, entrepreneurship and innovation for the benefit of patients and society. By focusing on information systems, patient care paths, incentive structures and the challenges of innovation, the lectures will seek to provide educators with an overview of the main characteristics of the Danish healthcare systems with special emphasis on factors that are important for creating, testing and implementing innovative designs, interventions and service solutions.

Program
