

EIT HEALTH INNOVATION PROJECTS

– WHAT’S IN IT FOR ME?

UCPH LOM, CBMR and CEHA are pleased to invite interested researchers and research support staff for an afternoon meeting on the call for EIT Health innovation projects in 2018 and the opportunity to learn from colleagues, who will run an innovation project in 2017.

“The EIT Health aim at making innovation happen within healthy living, active ageing and improving healthcare”

The EIT Health call for Innovation projects is open from 21 December 2016 - end of April 2017. Lykke Ricard, UCPH’s EIT Health Office Liaison, Palle Høy Jacobsen, Managing Director Scandinavian CLC and Trine Winterø, Vice-Dean for Innovation and External relation at The Faculty of Health and Medical Sciences will present the potentials, the call for innovation projects and answering your questions.

Time: 19 January, 15.30-17.00 (network between 17-18.00)

Venue: University of Copenhagen, Panum, 42.0.01 (the pavillion at Nørre allé 20)

ABOUT EIT HEALTH

EIT Health is Europe's largest public-private innovation partnership, working together to address the challenge of Healthy Living and Active Ageing.

EIT Health is a consortium of more than 50 core partners and 92 associate partners from leading businesses, research centres and universities from across 14 EU countries.

The goal of EIT Health is to contribute to increasing the competitiveness of European industry, improve the quality of life of Europe's citizens and the sustainability of healthcare systems. Adopting an investor-approach, EIT Health will drive the integration of business; research and higher education, boost innovation, and be a catalyst for new solutions for Europe.

The EIT Health provides talented people with the opportunity to start a company, design a product, launch a service, get a new degree, and advance their careers through three key programmes:

- Innovation projects
- Education
- Business opportunities

EIT HEALTH MATCHMAKING EVENT, 1-3 FEBRUARY IN UPPSALA

This event is an opportunity to kick start new collaborations as basis for submission of common applications for the upcoming EIT Health calls within all three pillars: Campus, Innovation projects and Accelerator. The event aims to gather scientists and enterprises for interdisciplinary sessions in order to address various challenges in larger groups of expertise. The event is an opportunity for discussions, as well as for one-to-one meetings and group sessions, aiming to give the participants a head start on upcoming EIT Health-calls. [Read more](#)
